

DR. HUBFRT 7ITT

Science-Fiction like Star Trek expands the human imagination

Combining fun and technical know-how is a matter of particular importance to Global Topspeaker Dr. Hubert Zitt. During his extraordinarily entertaining Star Trek lectures, he takes his audience into the vastness of space. The associate university professor and specialist author knows better than any other how to explain the future of technology in such an inspiring and imaginative way!

Electrical engineer, associate professor of computer engineering

Expertise: Star Trek-Expert (physics, technology, sociological backrounds)

LECTURES

- Star Trek: How technical visions became reality
- Warp speed! Energy and drives in the far future facts and fiction

PARTICIPANT FEEDBACK

"It's hard to beat the creativity! Super speaker! Fascinating! Keep it up!" Achim Birr / 4waste GmbH
